AI Shopping Assistant

Objective

Build an AI assistant using Flowise + OpenRouter that recommends products based on user needs and budget.

Tools Used

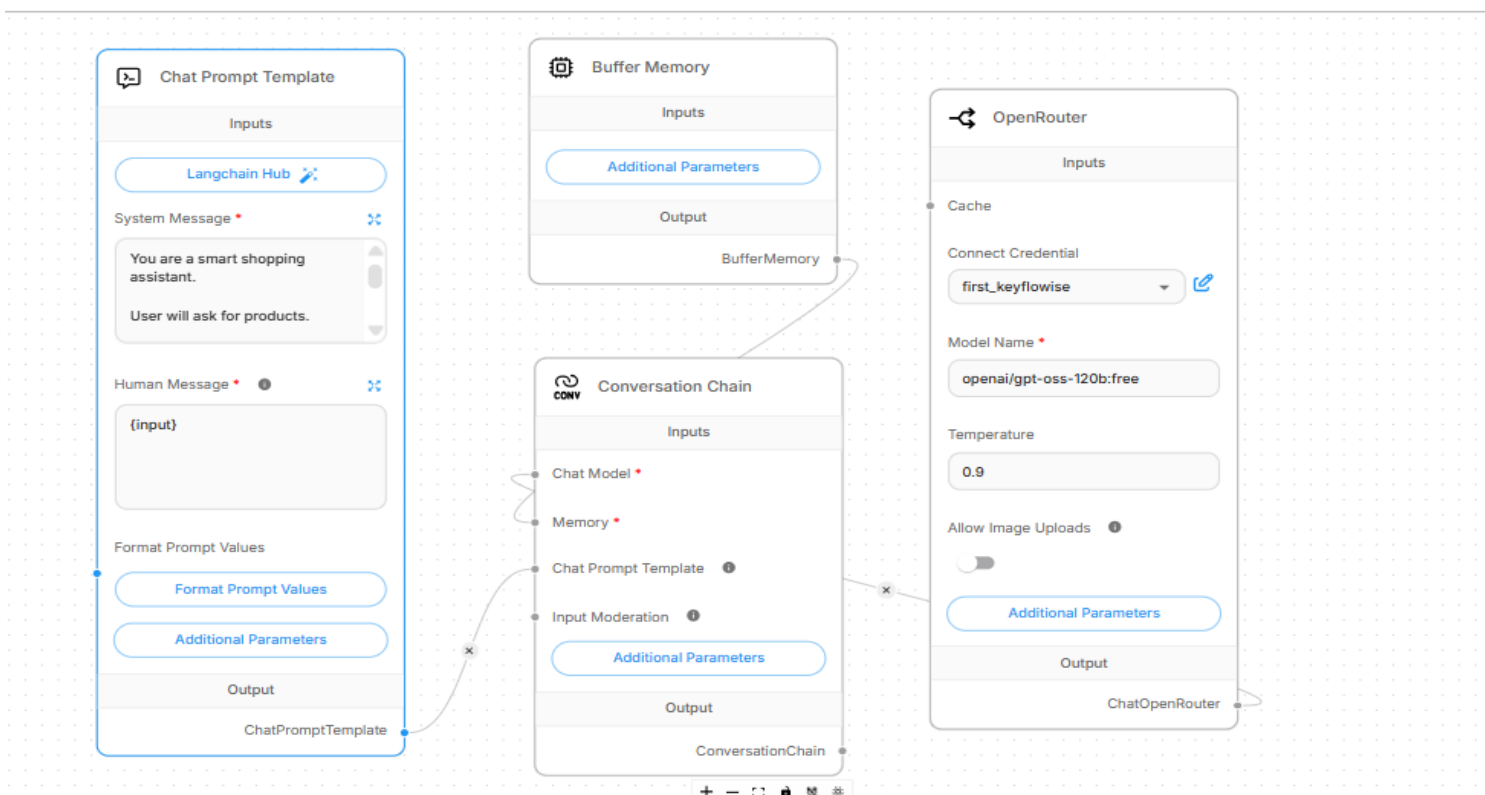

- Flowise
- OpenRouter API

Description

This assistant takes user input (product + budget) and suggests 3 suitable products with price and reason using AI.

Flow

User Input → Prompt → LLM (OpenRouter) → Output

Prompt

You are a smart shopping assistant.

User will ask for products.

Recommend 3 products with:

- Name
- Price in ₹
- Short reason

Result /output

1a1-2658-4b23-85fc-1e84a8ae8b5c

Clear Chat

Hi there! How can I help?

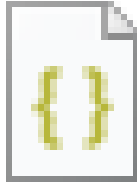

i want guitar under 5000

Here are three acoustic guitars you can get for under ₹5,000 in India:

#	Guitar (Model)	Approx. Price (₹)	Why it's a good pick
1	Yamaha F310 (Student/Entry-Level)	₹4,800	Reliable Yamaha build, balanced tone, easy-play neck – ideal for beginners.
2	Krupone R1 Acoustic Guitar	₹4,500	Affordable Indian brand, solid spruce top gives decent resonance for practice.
3	Harmony H45 Acoustic	₹4,200	Lightweight, smooth finish, comes with a basic gig bag – great starter kit for under budget.

All three are readily available on major Indian e-commerce sites (Amazon, Flipkart, Snapdeal) and include the essential accessories (strap, picks) in many listings. Happy strumming!
